

# ARE YOU MAKING THE CONNECTION?

IN TODAY'S MOBILE WORLD, ONE THING IS CLEAR:

WE ALL NEED TO STAY CONNECTED

Between 2014 and 2019, mobile data is expected to increase **57% per year**

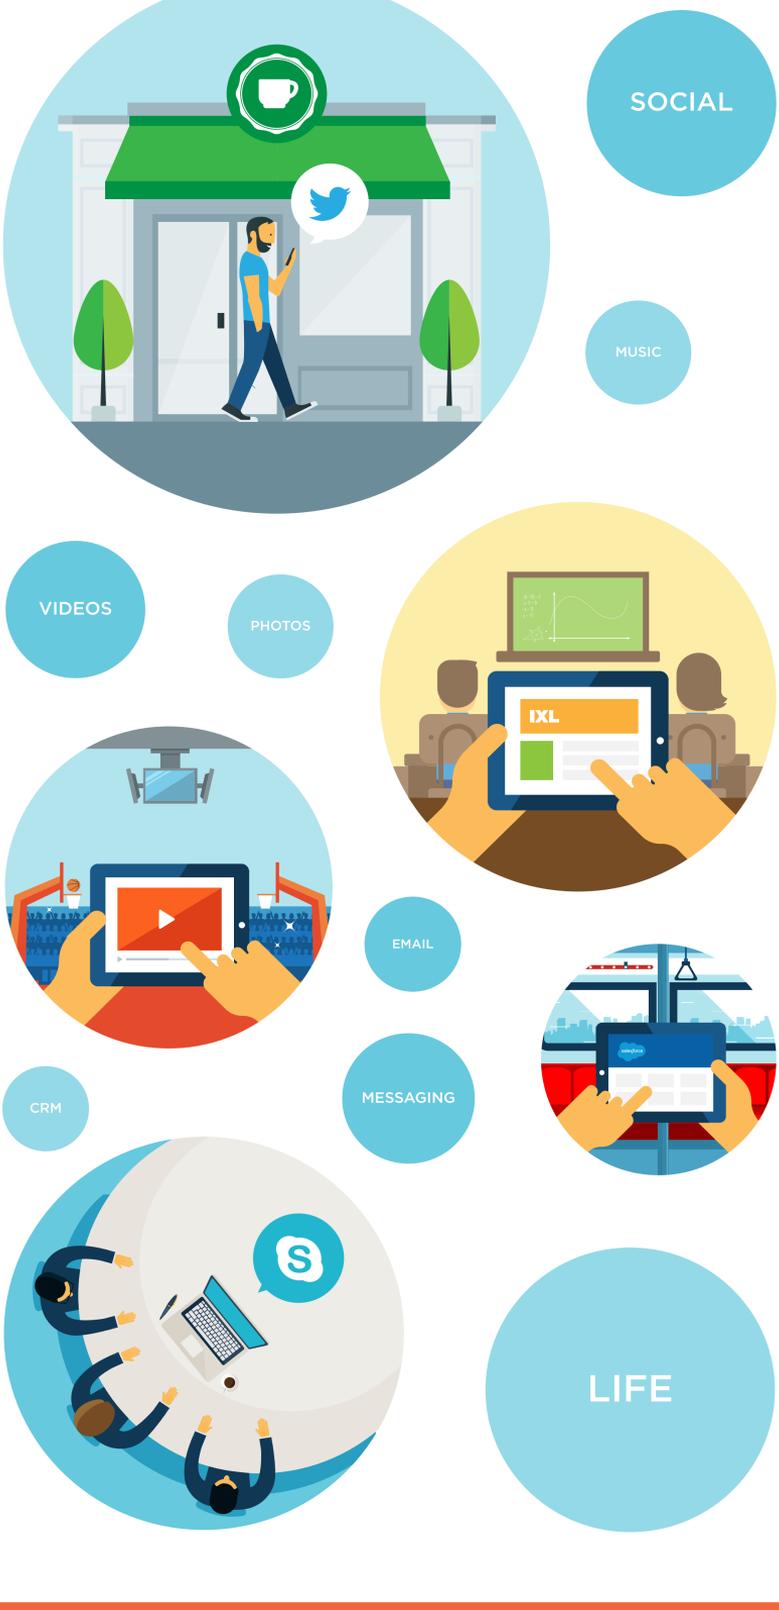

By 2018, there will be as many Wi-Fi Connections as Ethernet Connections

In 2014, 4x more smartphones shipped than personal computers

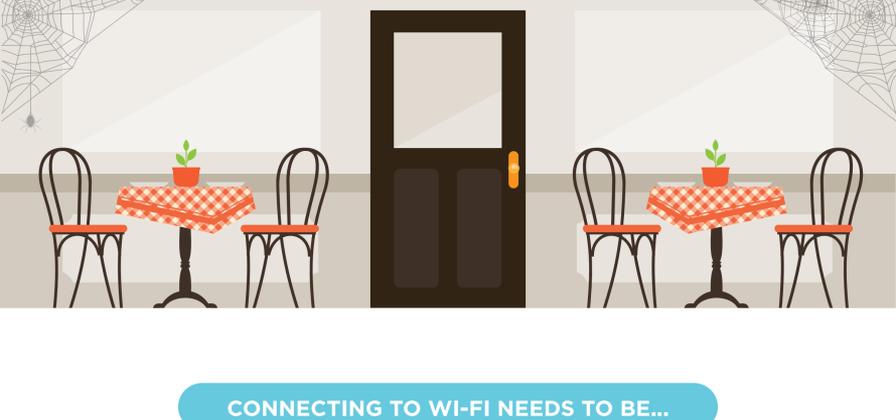

**85%**

By 2020, **85% of enterprises** expect to deploy employee-owned device policies...which could triple the number of mobile devices in the workplace and on the WLAN

EVERYONE EXPECTS TO CONNECT ANYTIME, ANYWHERE AND THAT MEANS:

IF USERS CAN'T CONNECT WHEN THEY'RE IN YOUR SPACE, THE ONLY THING THEY'LL ACCESS IS THE EXIT

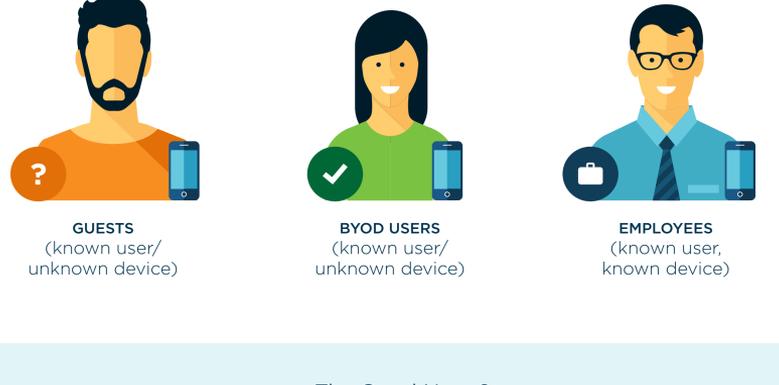

CONNECTING TO WI-FI NEEDS TO BE...

AND... EVERYWHERE

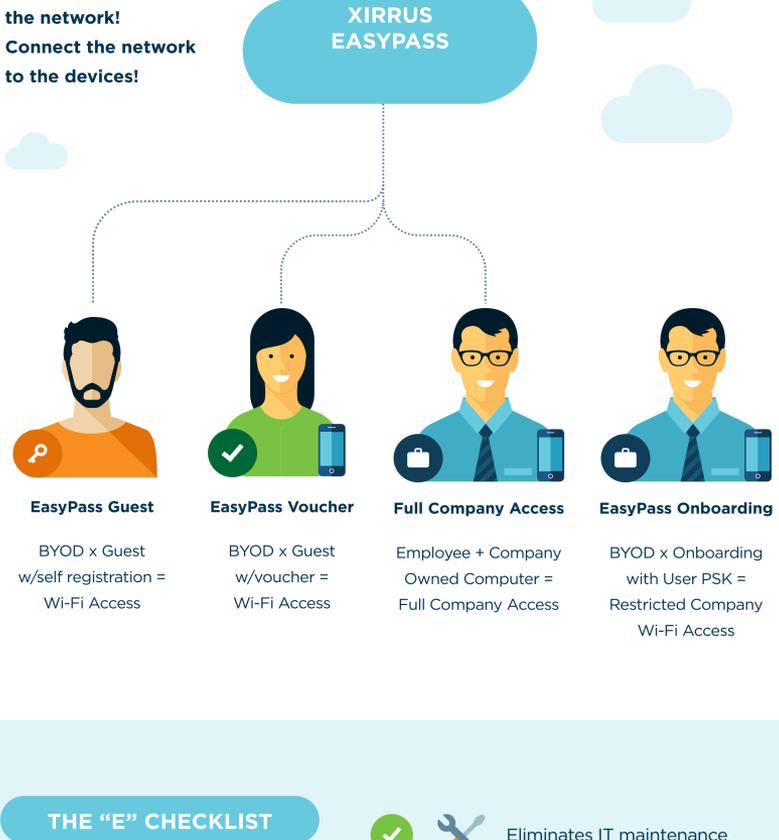

ACCESS NEEDS TO BE EASY FOR EVERYONE:

The Good News?  
**There's a way to make all this happen**

## XIRRUS EASYPASS

is a suite of services that makes Wi-Fi access **fast, safe and easy for all scenarios**

## THE "E" CHECKLIST

- Eliminates IT maintenance
- Effortless device connection
